Ms. Hesse:

I do not need someone to write messages for me any more than I need the lawyers living off the DOJ to decide what is good for me. I liked the telephone service that worked! So it cost a bit more but the phones could fall from the second story and still work. Now we have junk phones from China and God knows where which need replacing each year. Thank you DOJ! The "hodgepog" called service must also be from China. Now the student lawyers want to kill the organization that made the computer operation possible for almost any age group. AND YOU USE MY MONEY TO MAKE MY LIFE MORE DIFFICULT. I wonder just what is taught in law school these days. It sure isn't to defend the ordinary people. I would like to express my support for the revised proposed Final Judgment in the U.S. v. Microsoft case. when all appeals from continuing the litigation would finally be exhausted.

Sincerely and Thank you
